

3300SD

SINGLE NEEDLE LOCKSTITCH, DROP FEED WITH DIRECT DRIVE

PRODUCT SPECIFICATIONS

A STITCH IN THE RIGHT DIRECTION

The era of motor belts and clutches is officially over! Noisy motors are now a thing of the past. Replacing belts and the dust they create is history. Say hello to the all-new 3300SD, our most popular single needle machine now with our exclusive energy-saving direct drive technology.

The direct drive 3300SD is all about convenience and puts you, the sewer, in total control. Now, at the touch of a button you have the ability to sew precisely one stitch at a time (step stitching). Regardless of what you are sewing and what your skill level is, the digital speed control (conveniently located beside the stitch length dial) allows you to adjust the sewing speed for any task. A bright LED light located to the right of the needle bar illuminates the sewing area for maximum visibility. The 3300SD redefines what a single needle machine can do.

FEATURES

- Built-in direct drive servo motor
- Needle positioning (up/down)
- Built-in LED light
- Automatic lubrication with pump
- Built-in bobbin winder with manual thread cutter
- Tool kit, drawer, thread stand included
- Individually tested and sewn-off before shipping
