THE BOARD 220IB

OVERSIZE + HOME IRONING TABLE

Hand made in Italy by skilled craftsmen, the 220IB is the pinnacle of ironing board excellence. This is a board made without compromise. It was designed to provide maximum stability and features to make ironing less work.

Not all ironing boards are made the same. We use traditional tube-frame construction and a galvanized metal mesh screen so your investment will last.

Simplify your ironing experience with a Conex® Heat Resistant Zone. Conex® allows you to place your iron on the board with no worries, this safe zone is heat resistant to 400°F and is a flame retardant.
